

The Original
BULLITT®

BY LARRY VS HARRY, COPENHAGEN

One brick...

While both Larry and Harry love many Danish companies, we are not suggesting that any particular Danish company loves us back. Though we are very lovable. (Call us)

...endless possibilities

Who are they?

The Story

As Copenhageners, Larry and Harry have always biked as much as they could. Not just because it is green, cool or cheap, but because it is the fastest, most convenient way to get around town. Harry had a contract business (construction, not Goodfellas) for 20 years where he used a 60-year-old Danish Long John cargo bike to get from job to job. Larry was busy working for another Danish bike manufacturer, making the best cargo trike in the world. The problem was Harry's vintage Long John was still faster, lighter and more manoeuvrable. That's when Larry and Harry in 2008 decided to build the perfect cargo bike.

Larry and Harry's master plan was to build a bike that could replace much of the functionality of a car in the city, but would also be a desirable object. That was a tough challenge because, let's face it, cars are brilliant.

The problem with cars, of course, is running costs, endless traffic jams and emissions. The Bullitt is the

environmentally friendly solution to getting around quickly, safely, and stylishly. From trucking down to the beach with a case of beer and a ghetto blaster to carrying out demanding commercial transport, the Bullitt will get you from A to B faster than a speeding ...bullet. And you'll feel good doing it. Larry vs Harry only makes quality kit. So if it's got "Larry vs Harry" on it, you know it's built to last. It's a scientific fact that after the next apocalypse all that'll be left will be cockroaches, Keith Richards and Bullitt cargo bikes.

Moms and dads use Bullitts to pick up their kids and groceries. Tradespeople use Bullitts to carry their tools. Delivery and messenger companies use Bullitts instead of their vans. People commute on them all over the world. As we said, the possibilities are endless. The Bullitt cargo bike is a game-changer. It's dirt cheap in comparison to running a vehicle, cycling is healthy and you will be amazed at how much time you save.

What's included?

Framekit

Bullitt frame

Designed in Copenhagen and made from strong and durable 7005 / T6 heat treated aluminium. Durable paintwork with a layer of primer, powdercoating and two layers of lacquer

Inter-changeable dropouts

Specially designed dropouts for internal and external gears plus single speed.

If you're buying a Framekit on its own, you need to purchase dropouts for: Internal, External, Single Speed or Coaster brake drivetrains

Easy-Up stem lifter

Allows for an easy on-the-fly 100mm height adjustment

FSA Orbit X1 headset

Spacers included

Steering rod

Made from high quality steel

Tapered headset

High quality sealed bearings

Steel fork

Made from cromoly steel
Excellent strength to weight ratio

Steering linkage

Specially produced rubber covered high durability ball joint

Kickstand

Aluminium kickstand for easy parking and loading

Steering arm

Ensures long-lasting, precise steering through the years

What's in the box?

Full Bike

Framekit and Component Group

o Complete bike

Complete bike consists of Framekit and Component Group and everything (yes, that also means everything from bell to mudguards to pedals - everything!) to ride safely and securely, is included

The cargo area comes with nothing but space for accessories!

o Component Group

The complete Component Group consists of wheels, drivetrain + dropouts (internal and external gear options available) brakes, seat-post, stem, handlebar, saddle, pedals, bell and mudguards

o Reflector Set

The Reflector Set complies with EU regulations. Mounted at the front, rear, on the pedals and tyre sidewalls

What's included with the eBullitt?

eBullitt Shimano STePS

Approx. 2 hours

Charging

100% charged in **four hours**

80% charged in **two hours**

Approx. 4 hours

The removeable STePS battery ensures easy and no hassle charging

Range

Depending on cargo, road conditions etc. the fully integrated Shimano STePS motor delivers a range of up to **100km** with a fully charged battery on Eco Mode. To comply with EU regulations the speed is limited to max. **25km/h.**

Integrated System

With **Shimano Di2** the integrated system lets you **easily control everything** from gears to lights with a click of a button and all this without ever having to take your hands off the bars.

Keyed Alike

The ABUS Keyed Alike system lets you use the **same key for both** the included ABUS Shield frame lock and the Shimano STePS battery.

You decide how best to use your Bullitt, but here are some pointers

Loading Capacity & Safety

Weight

The Bullitt frame is a pioneer and sets the standard for cargo bike testing. It's been stress and weight tested for up to **180kg** including rider.

Safety

The Bullitt is built using high quality materials for the highest safety possible. Safety Belts and Canopy provide a secure and stable children transport.

Volume

The cargo area is 71 cm long and 40 cm wide and after that, the sky is the limit. The Bullitt safely carries **two children**, one full grown adult or even two big dogs.

Lockable

If transporting something precious (*other than your children or pets*), the Bullitt delivers. **Fully lockable** cargo boxes are available for safe, secure and integrated storage.

A standard equipped Bullitt is suitable for people from 160cm / 5'3" up to 200cm / 6'7"

What about size?

Quick release seat clamp
200mm height adjustment

Easy-Up stem lifter
100mm height adjustment

160cm / 5'3"

200cm / 6'7"

Approximate minimum and maximum height

Step 1 First let's pick a frame color

- CLASSIC ●
- RACE ●
- LIZZARD KING ●
- PEPPER ●
- SUBMARINE ●
- BLUEBIRD ●
- CLOCKWORK ●
- MILK PLUS ●
- RA ●

Step 2 Then your Component Group

Internal geared Component Groups

- Single Speed
- 7-speed, Shimano Nexus
- 8-speed, Shimano Alfine
- 8-speed, Shimano Alfine, Gates Carbon Drive
- 11-speed, Shimano Alfine
- 11-speed, Shimano Alfine Di2, Gates Carbon Drive
- eBullitt, 8-speed, Shimano STePS E6000, Di2
- eBullitt, 11-speed, Shimano STePS E8000, Di2

External geared Component Groups

- 10-speed, Shimano Saint
- 20-speed, Shimano Deore
- 22-speed, Shimano XT

Framekit

If you're buying a Framekit on its own, you need to purchase dropouts for: Internal, External, Single Speed or Coaster brake drivetrains.
 Framekit includes: Frame, fork, steering arm, steering rod, kickstand, Easy-Up stem lifter and two headsets.

Step 3 Want some accessories?

Bullitt Canopy
 incl. protective sidebars
 Remember a Honeycomb Board

Bullitt Foldable Seat
 Incl. two Safety Belts
 Remember a Honeycomb Board

Bullitt Billboard
 Colors ●●●●●●●●
 Regular and eBullitt version

GO RIDE YOUR BIKE!

Utility

&

Speed

We have put together 10 examples, but there are countless others

Every bike is built around one brick: The Larry vs Harry Bullitt frame

These examples show combinations of the Bullitt with a variety of accessories for different needs.

The Bullitt is **designed for easy and safe transport of children, work related goods, groceries... you name it!**

The main focus of the design is **high quality, flexibility and safety**. Their **slim design and light weight** fit perfectly in narrow urban spaces and allow them to move easily around the city -whatever you may be transporting.

CLOCKWORK

Example No. 1
7-speed Bullitt with Canopy and Seat

Shimano Nexus 7-speed

Frame	Bullitt Clockwork Framekit
Drivetrain	Shimano Nexus 7-speed
Wheels	Alexrims DM24 36H / Shimano Nexus 7 rear hub / Novatec front hub
Tyres/Tubes	Schwalbe Marathon 1.75" / Schwalbe tubes
Finishing Kit	Aluminium seatpost, short stem and cruiser bars
Pedals	Wellgo fully sealed platform pedals
Crankset/BB	Truvativ cranks with 42 teeth chainring / 20 teeth cog Truvativ Powerspline bottom bracket
Brakes	Tektro hydraulic disc brake front and Shimano Nexus coaster rear brake

Saddle	Bullitt Velo Comfort
Mudguards	Bullitt specific mudguards
Safety	Full reflectors set Japanese Wind Bell
Accessories	Honeycomb Board Canopy Foldable Seat Magnetic Reelight Abus Protectus 5000 ring lock

One Bullitt frame with endless possibilities...

Bullitt Cargo Accessories

Honeycomb Board

This is the base of the Bullitt ecosystem. The Honeycomb Board is constructed from an aluminium grid structure and weighs only 2.8kg. It's strong as hell and completely weatherproof - creating a solid base for a flexible and fully modular carrying system.

BBX Sidepanel Kit*

The two sidepanels are engineered from our Honeycomb material and laminated with a safe rubber edge (multiple colours available). A cordura top cover and back panel is included. A versatile accessory that creates a modular, flexible system with the Honeycomb Board and Foldable Seat.

Canopy*

The ultimate weather protection for your passengers, big or small. The Canopy is a protective, metal framed cover with a mix of sturdy cordura fabric, mesh and clear plastic windows, providing a good balance of safety, weather-proofing and fine views to the outside world. Works in combination with our Foldable Seat.

Foldable Seat*

A super streamlined, padded seat allowing two children or one adult to be carried. The seat can be folded up and with its slender proportions takes no more than 100mm space away from the cargo area. Comes with two hip safety belts.

Safety Belt

Loose seatbelt for custom configuring your safety solutions. Easily adjustable and can be quickly implemented.

Bullitt Garage

A huge tapered cover to keep your Bullitt looking shiny when parked outside year-round. The Garage fits rather nicely and has reflective strips, buckles and a mesh stuff sack. Zippered openings allow you to lock your bike to a secure object and ensure easy access to the ringlock.

*Note:

Requires Honeycomb Board

Pssst! We have even more accessories at www.larryvsharry.com

More Accessories...

Reelight

Reelight use a compact and smart system of magnets to generate light. Mounted at the axles of your front and rear wheels the lights continue to blink after you stop cycling for 30 seconds, handy for traffic lights and whatnot.

Damper Kit

Japanese made damper for luxurious steering!
More stability and better control through turns and when riding on funky, uneven surfaces like cobblestones with weight.

Fahrer Akku Battery Cover

Made especially for the Shimano STePS eBullitt E6000 battery by our friends in Berlin, Fahrer. The Akku Battery Cover is a great addition for maintaining and protecting your battery in adverse weather conditions and providing a buffer against drops and scratches.

Dynamo Hub

A powerful and secure lighting solution from German manufacturers Busch & Müller, combining the Lumotec IQ Avy Plus N front light (30 lux) and Toplight Small rear light with saddle rail attachment. The lights are supplied with cable for hooking up to the Shimano Alfine dynamo front hub.

Gates Carbon Drive

Upgrade Kit for Alfine 8 Component Group including Centertrack chainring, Gates Carbon belt and Centertrack sprocket. The Gates system is the ultimate upgrade for service-free cycling. Please note: Gates Carbon Drive is not compatible with eBullitts.

Fahrer Panel Bags

The Panel Bags from Fahrer are two additional pockets for the Bullitt. Handmade in Berlin, the system comprises of both back panel and two small bags.

Plastic Box

A lightweight plastic box that fits the Bullitt perfectly. Can simply be used for anything!
70 x 42 x 32 cm

Alu Box

A very classy aluminium storage box, great for tools and spare parts; The Alu Box is a perfect accessory for the professional tradesperson, looking to transport their gear effectively and securely. Alu Box comes with a lockable lid and is sturdy and lightweight.
70 x 40 x 52 cm, 135 l.

Convoy Box

Our specially manufactured, secure solution for the professional messenger or tradesperson. Integrated locking lid and securely mounted to the frame, the Convoy Box is our largest storage solution. The Convoy Box offers peace of mind when transporting tools, camera equipment or other precious cargo.
82.5 x 43 x 51.5 cm (sloping top), 145 l.

Billboard

The metal Billboard sits in the main-frame of the Bullitt, designed to display your business' details or perhaps just a friendly greeting to passers-by. Comes in 9 colours and two versions for both Bullitt frame and eBullitt frame.

Saddle Race

A slim saddle with a long nose for those used to sport orientated bikes.
28 cm long, 13 cm wide.

Saddle Comfort

A wide saddle for those accustomed to comfort.
25 cm long, 16 cm wide.

Now you can see, the Bullitt has endless possibilities...
